Ramkumar Dilli
Chief Information Officer - Myridius

Executive Summary:

Results-driven technology leader with 25+ years of experience delivering complex IT programs across Project Management, Infrastructure Management, ERP & Business Applications, Technical Support, and SLA Management. Currently serving as CIO and Global Security Head at Myridius.

- Lead the planning and execution of large-scale IT transition programs, including migrations, consolidations, and system integrations.

- Collaborate effectively with cross-functional teams to define project scope, objectives, and deliverables aligned with business goals and priorities.

- Develop detailed project plans, timelines, and budgets, and manage implementation to ensure on-time, within-budget delivery.

- Decisive leader with exceptional technical expertise, strong communication skills, and proven ability to navigate complex matrix structures.

- Achieved 30–35% reduction in operational costs through strategic procurement, vendor management, process optimization, and innovative build-out models.

- Experienced in cost estimation, systems development planning, infrastructure upgrades, and negotiation of equipment and software purchases.

- Maintained key program performance data to support executive decision-making and drive continuous improvement.

- Delivered enterprise-wide technical solutions that align business and information systems with strategic goals.

- Member of the Information Security Team, delivering operational services aligned with security frameworks; formulated and enforced policies and procedures to ensure regulatory compliance, governance, robust security controls, and reduced information risk and data leakage.

- Award winner on CISO Platforms and CIO Platforms for excellence in security leadership and IT strategy.

- Technical Member and Speaker for the National Cyber Security Standards (NCSS), actively contributing to industry knowledge sharing and best practices.

- Dedicated cybersecurity contributor with a commitment to raising awareness, promoting secure practices, and strengthening the broader security community.
